Timely submission of payment provides you sufficient time to rectify your submission in case of errors.

Important Notes:

1. If you fail to submit and pay your CPF contributions for the month by the 14th of the following month*, late payment interest of 1.5% per month (from the first day of the following month) will be imposed.

*If 14th falls on a Saturday, Sunday or Public Holiday, it will be next working day.

2. CPF Board has a system to detect employers who are late in paying CPF contributions. If you no longer have any employees in your service, you must tell us as soon as it happens to avoid potential enforcement actions (cpf.gov.sg/updateEmployees).

Use our calculators to help you with your CPF contribution matters (cpf.gov.sg/EmployerCalculator).
