NE: Net earnings = Gross earnings less Fixed Expense Deduction Amount (FEDA)

Steps to compute CPF contribution:

- 1) Compute the total CPF contribution (rounded to the nearest dollar). An amount less than 50 cents should be rounded down to the nearest dollar. An amount of 50 cents and above should be rounded up to the nearest dollar.
- 2) Compute the platform worker's share of CPF contribution (cents should be dropped).
- 3) Platform operator's share = Total contribution - platform worker's share
