

How the MOE Higher Education Student Loan (HESL) Can Help with Your Tertiary Education Financing

Interest-free Financing During Study:

- MOE HESL: No interest charges during course of study
- CPF Education Loan: 2.5% p.a. interest upon deduction of CPF savings

Tip: Consider the long-term impact of interest accumulation when choosing between loan options!

Flexibility in Unprecedented Times:

- MOE HESL: May appeal for deferment of both repayment and interest due to further studies or financial difficulties in loan repayment
- CPF Education Loan: Deferment of repayment possible, but interest continues to accrue

Note: Both loans consider appeals on a case-by-case basis (e.g. for further studies, unemployment, or medical conditions).

Quicker Financial Freedom with Earlier Loan Settlement:

- MOE HESL: Maximum repayment period of 10 years
- CPF Education Loan: Maximum repayment period of 12 years

Tip: Evaluate total loan costs, including accrued interest, before deciding on what suits you best!

Help Your Parents and Loved Ones Secure Their Retirement:

- MOE HESL allows you to finance your education without using your parents' and loved ones' CPF savings
- Enables your parents and loved ones to keep and grow their CPF savings for retirement

Tip: By choosing MOE HESL, you can contribute to your parents' financial security while pursuing your education!
